

# Senior Patent Engineer

(m/f/d)

Full-time position, unlimited contract

A circular collage image on the left side of the page. It features a close-up of a person's face looking at a round-bottom flask containing a green liquid. In the background, there is a modern building with the Novaled logo and a laboratory setting with various glassware.

**Novaled GmbH** is a research and development company and the world's leading supplier of special chemicals for the application in organic light emitting diodes (OLEDs). Novaled's products can be found in most AMOLED displays, including smartphones, TVs and smartwatches. Novaled's main shareholder is Samsung SDI.

## Your Role:

- You will be responsible for obtaining, enforcing and evaluating IP rights in close collaboration with the in-house Research & Development team and external patent attorneys.
- This task includes patentability assessments, drafting of patent applications and responses to patent office actions.
- You will be responsible for freedom-to-operate searches and assessments of third-party-patent rights, including IP landscapes and IP gap analyses.

## Your Profile:

- University Degree (MSc or PhD) in organic chemistry or related subject
- Strong track record in patentability and freedom-to-operate assessments. Experience in drafting of patent applications and prosecution of IP rights is highly desirable
- Proven knowledge and experience in international patent law (EP and US; ideally also KR, CN, JP, DE).
- Familiar with all functions of SciFinder, patent databases (especially PatBase or similar), Microsoft Office
- Reliable and independent working style, high willingness to perform and learn
- Analytical thinking and the ability to structure complex scientific issues and present them in a clear and understandable manner
- Very good oral and written communication skills. Professional English, further languages (in particular Chinese, Korean and/or Japanese) would be an advantage
- Enjoyment of working in an international multidisciplinary team at the forefront of research

You can expect attractive social benefits, e.g. 30 days of vacation, kindergarten allowance, recreation allowance, allowance for sports activities, free hot and cold drinks as well as an in-house canteen. Regular team events and management information meetings complete our offer.
